

**Rokiskis Juozas Tubelis  
gymnasium from  
Lithuania**

Represented by Vilma and Daiva

We are two teachers from **Lithuania**. We are working at the same school- **Juozas Tubelis gymnasium** in Rokiskis. It is a small and quiet town in the north-eastern part of Lithuania. The population of the town is about 17000 people. There are 3 big schools, and we represent one of them. 716 students attend our school. Daiva is an English teacher, Vilma is a Computer Science teacher.

Education and Culture  
Lifelong learning programme  
COMENIUS

Students and teachers from our gymnasium are participating in the Lifelong learning program:

- Teachers had been studying English beginner's course since 2006.
- Vilma has been studying English in the UK funded by The fund of the educational exchange.
- Our students do short-term eTwinning projects.
- It is the third year we are involved in the international Comenius project "Eating in harmony with nature".

## Our international work

The project "Eating in Harmony with Nature" focuses on learning children to provide healthy lifestyle. We are working together with our partners from three different European countries:

- our coordinator Italian school from Naples,
- Polish school from Pabianice and
- Bulgarian school from Varna.

**COMENIUS**  
eating in harmony with nature

## Comenius project "Eating in Harmony with Nature"

European Comission and Fund of educational exchange allow us to meet with our partners in different countries. We think that it is very important to exchange the ideas, understand different cultures, tolerate and respect various attitudes, to gain experience of effective cooperative work and to be involved in solving the biggest European problems.

## **International mobility**
